

EMERGINT OVERVIEW

National, Full-Service, Information Management, and Technology Consulting Firm

• Management Consulting • IT Professional Services • Data Integration Software • IT Staffing Services

Emergint experts offer creative ideas to solve some of our nation's toughest problems, including building components of our nation's bioterrorism preparedness and alerting network; collecting, integrating, and managing clinical data to support retrospective and prospective research; providing public health informatics; classified and non-classified IT support services, and managing the grants processing for our nation's most promising health, science and research studies. Our experience and services include local, state, and federal government, as well as private companies.
